DETAILED ACTION

1. Amendment filed December 6, 2005 has been entered and acknowledged by the examiner.
2. Applicant's arguments, see page 6, filed December 6, 2005, with respect to claims 1-19 have been fully considered and are persuasive. The rejections of claims 1-19 have been withdrawn.

Allowable Subject Matter

3. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

While the prior art discloses a cathode ray tube having a panel with a flat outer surface and an inner surface upon which is formed a screen of a black layer and red, green and blue phosphors, the prior art does not disclose the screen transmittance, as defined in claims 1 and 10, to increase and then decrease along a line from a center portion to a peripheral portion of the panel (provided the line is as defined in the specification, i.e., the line is such that for any two points a and b on the line, if a is closer to the center portion end of the line than b, then a is closer to the center point of the panel than b). Hence claims 1 and 10 are allowed. Claims 2-9, 11-19 are allowed due to their dependence on claim 1 or 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
